My design is inspired by the nice model from Andeker (thingiverse). His design was too long to fit in my toolbox so I remixed it from scratch. The main difference is that the distance between each wrench is shorter.

My toolbox drawer is 22in Wide by 15in deep.

This fits 16 metric wrench (M7 to M22) and 15 imperial wrench (1/4in to 1-1/8in)

Printed with my [Prusa](#) MK3
